

Quiz

In this lesson, we will solve a quiz related to the concepts covered in the previous lesson.

1

What is a **symbol**?

2

What is the main characteristic of a **symbol**?

3

What is the correct output of the following code?

```
const friends = {  
  "Tom" : "bff",  
  "Jim" : "brother",  
  "Tom" : "cousin",  
}  
  
for (friend in friends){  
  console.log(friend);  
}
```

4

What is the correct output of the following code?

```
const family = {  
  [Symbol("Tom")] : "father",  
  [Symbol("Jane")] : "mother",  
  [Symbol("Tom")] : "brother",  
};  
  
const symbols = Object.getOwnPropertySymbols(family);  
console.log(symbols);
```
