

Challenge 8: Sum of Squares of Even Numbers

In this challenge, your task is to create a list of the squares of even numbers.

WE'LL COVER THE FOLLOWING ^

- Problem Statement
- Input
- Output
- Coding Exercise

Problem Statement

Given an `evenSquare()` function, create a list with the squares of the even numbers from 0 to 20. The final output should be the sum of even numbers in the list:

Input

A list with the square of even numbers from 0-20

Output

The sum of the numbers in the list

Coding Exercise

You have been given some starter code and a return statement that allows you to return the list you've created.

Suggestion: More about list comprehensions can be found at [Python Documentation on List Comprehension](#).

```
def evenSquareSum():  
    #write code here  
    l1 = []  
    return l1
```

Now, let's move on to the solution of the above problem.
