

Quiz: Deduce the Outputs

In this lesson your concepts will be evaluated through a quiz.

Choose one correct answer

1

What is the output of the following code snippet?

```
a := [...]string{"a", "b", "c", "d"}

for i := range a {
    fmt.Println("Array item", i, "is", a[i])
}
```

We hope that you performed well in the quiz. That's it about the arrays and slices. In the next chapter, we'll discuss maps in Go.
