

Coding Challenge #3: Array Maximum

In this coding exercise, you will take an array of numbers and find the element having maximum value among those values in the array.

WE'LL COVER THE FOLLOWING ^

- Problem Statement
 - Input
 - Expected Output
- Coding Exercise

Problem Statement

Write a program that creates an array of following elements, then returns the maximum element in the array.

Input

```
values = [3, 11, 7, 2, 9, 10];
```

Expected Output

```
11
```

Coding Exercise

```
function maxElement(values){  
  var max = values[0];  
  // Write - Your - Code  
  return max;  
}
```
