

# Exercise 1: Even or Odd

In this exercise, you are required to check whether the number is Even or Odd.

WE'LL COVER THE FOLLOWING ^

- Problem Statement

## Problem Statement #

Write a code which will check whether a given **integer** `number` is **even** or **odd**.

**Hint:** Think along the lines of using `if-else` condition.

**Write your code below.** It is recommended that you try solving the exercise yourself before viewing the solution.

**Good Luck!**

```
using System;
class Exercise1 {

    public static int test(int number) {
        int temp = 2;
        //write your code here and return 1 for odd number and 0 for even number
        return temp;
    }

}
```
