

Quiz

Let's check your understanding of the Inheritance.

1

What will be the output of following piece of code?

```
class Base {
public:
    Base(){
        cout << "Base constructor!" << endl;
    }
};

class Derived: public Base {
public:
    Derived(){
        cout << "Derived constructor!" << endl;
    }
};

int main(){
    Derived d;
}
```
