

Quiz

It's quiz time! Answer the following questions to test your knowledge and understanding.

1

Lambda never reuses existing container instances over a short period of time. This speeds up processing and avoids cold starts.

2

Select all the things through which you can share configurations apart from having a single template:

3

Select all the ways needed by Lambda functions if they want to share behavior:

4

What is the purpose of having a Kinesis Data Streams?

5

9

Lambda charges for memory allocation multiplied by CPU time, so bundling tasks with different memory needs can be unnecessarily expensive.
