

Challenge: Demonstrate the Blocking Nature

This lesson brings you a challenge to solve.

WE'LL COVER THE FOLLOWING ^

- Problem statement
- Output

Problem statement

Demonstrate the blocking nature of channels by making a channel and starting a goroutine that receives the value from the channel but after waiting for 5s. Then, put a value (of your own choice) on the channel. Print messages at the different stages and observe the output.

Output

```
sending  
received  
sent
```

The messages **sending**, **received**, and **sent** are printed at different stages.

Hint: Don't forget to import time.

Try to attempt the challenge below. Good Luck!

```
package main  
  
func main() {  
  
}
```

We hope that you were able to solve the challenge. The next lesson brings you the solution to this challenge.
