

Challenge: Devise Random Bit Generator

This lesson brings you a challenge to solve.

WE'LL COVER THE FOLLOWING ^

- Problem statement

Problem statement

Create a random bit generator that is a program that produces a sequence of **100000** randomly generated 1's and 0's using a goroutine.

Hint: You can use the `select` statement to randomly choose the cases for random generation.

Try to attempt the challenge below. Good Luck!

```
package main

func main() {

}
```

Random Bit Generator

We hope that you were able to solve the challenge. The next lesson brings you the solution to this challenge.
