

Helpful Resources

This lesson lists some helpful links and resources.

WE'LL COVER THE FOLLOWING ^

- Important links

Important links

- The [principal website](#) runs in *Google App Engine* with **godoc** (a Go-tool) serving (as a web server) the content and a Python front-end.
 - You can visit the [Help](#) page to find links to the *Go community* (forums, reddit, mailing-list, wiki, user-groups, and so on).
 - To see the current issues that are being debated or worked on [click here](#).
 - The source code can be found [here](#).
 - To view Wikipedia page on Go, [click here](#).
 - Go can be interactively tried out in your browser via the [Go Playground](#).
 - To get a first impression of the Go language, refer to this [tour guide](#).
-
