

Challenge: Anonymous Struct

This lesson brings you a challenge to solve.

WE'LL COVER THE FOLLOWING ^

- Problem statement

Problem statement

Make a struct with 1 *named* float field, and 2 *anonymous fields* of type `int` and `string`. Create a value of the struct with a *literal expression* and print the content.

Try to implement the function below. Good Luck!

```
package main

// make struct here

func main(){
    // create struct using struct literal and print its field using fmt package
}
```

Anonymous Struct

We hope that you were able to solve the challenge. The next lesson brings you the solution to this challenge.
