

Exercise 1

Suppose the following array is given:

```
array = [ 7, 15, 32, 9, '3', '11', 2 ];
```

Determine the output printed to the Javascript console.

All questions are part of the same program. Each instruction in every question is in sequence with the previous instructions.

1

```
console.log( array[3] );
```

2

```
console.log( array[7] );
```

3

```
console.log( array.pop() );
```

4

```
console.log( array );
```

5

```
console.log( array.shift() );
```

6

```
console.log( array );
```

7

```
console.log( array.push( 6 ) );
```

8

```
console.log( array);
```

Check Answers

Run the code below to confirm the solutions :

```
let array = [ 7, 15, 32, 9, '3', '11', 2 ];
```

```
console.log( array[3] );  
console.log( array[7]);  
console.log( array.pop() );  
console.log( array );  
console.log( array.shift() );  
console.log( array );  
console.log( array.push( 6 ) );
```

```
console.log( array.push( 0 ) );  
console.log( array );
```
