

Where To Look For Python 3-Compatible Code

As Python 3 is relatively new, there is a dearth of compatible libraries. Here are some of the places to look for code that works with Python 3.

- [Python Package Index](#): list of Python 3 packages
- [Python Cookbook](#): list of Python 3 recipes
- [Google Project Hosting](#): list of projects tagged “python3”
- [SourceForge](#): list of projects matching “Python 3”
- [GitHub](#): list of projects matching “python3” (also, list of projects matching “python 3”)
- [BitBucket](#): list of projects matching “python3” (and those matching “python 3”)
