# Problem: The French National Flag with Gradients

The goal of this challenge is to create the French National flag with CSS linear gradients.

Welcome to this challenge!

Put on your dev hat, and let's write some code :)

The goal of this challenge is to create the French National flag. Here's what it looks like.

The French National Flag

I have gone ahead to set up the playground below. It is essentially a `div` centered within the page.

HTML   CSS   Output

```css
1
2    #flag {
3        width: 400px;
4      height: 267px;
5      background:  blue; /*change this t
6      margin: 20px auto
7    }
8
9
10
11
```

```
12
13
14
15
16
17
```

Show Hint

So, go ahead. It's all yours.

Can you do this?

If you get stuck, you can view my solution in the next lesson.
