Quiz: Deduce the Outputs

In this lesson, your concepts will be evaluated through a quiz.

1 Deduce the output of the following program.

```go
package main
var a = "G"
func main() {
    n()

    m()
    n()
}
func n() { print(a) }
func m() {
    a := "O"
    print(a)
}
```

We hope that you performed well in the quiz. In the next chapter, you'll study some control structures.
