Quiz

In this lesson, we will solve a quiz related to the concepts covered in the previous lesson

1   Which one of these loops was introduced in ES6?

2   What is the correct output of the following code?

```
let people = [ "Tom", "Jerry", "Mickey" ];

for (let person of people){
  console.log(person);
}
```

Check Answers

We'll discover new methods to create and handle an array in ES6 coming up next.
