# Quiz: Deduce the Outputs

In this lesson your concepts will be evaluated through a quiz.

Choose one correct answer

1 What's wrong with the following code?

```go
package main
import "container/list"

func (p *list.List) Iter() {
    // ...
}
func main() {
    lst := new(list.List)
    for _ = range lst.Iter() {
    }
}
```

We hope that you performed well in the quiz. That's it about the structs and methods. In the next chapter, we'll discuss interfaces in Go.
