# Coding Challenge #1: Adding a Paragraph

This coding exercise is design to test the concepts you have covered so far. Try to implement it on your own. If you get stuck, you can always refer to the solution provided in the "Show Solution" tab.

## Problem Statement #

Improve the languages example to add a paragraph ( `<p>` tag) containing a link ( `<a>` tag) to the URL:

https://en.wikipedia.org/wiki/List_of_programming_languages.

The final output should look like this:

## Some languages for programming

- JavaScript
- C++
- Java
- C#
- PHP
- C
- Python
- Ruby

Here is a more complete list of languages.

**Note: Before testing your code, please run the code by pressing the** RUN **button. Then, you can click the** TEST **button. Otherwise, the test cases won't pass even if the code is correct.**

cases won't pass even if the code is correct.

| Output |
| --- |
| JavaScript |
| HTML |

## Some languages

- JavaScript
- C++
- Java
- C#
- PHP
