Total Cart Price: Exercise

Write a point-free function to calculate a shopping cart's total price in dollars.

Calculate a shopping cart's total price in dollars.

Usage

```
const price = getTotalPrice(cart); // '$44.20'
```

Your solution must be point-free.

index.js
cart.js

```
import {} from 'ramda';
import cart from './cart';

const getTotalPrice = () => {};
```
