# Quiz

In this lesson, we will solve a quiz to test the concepts that we have covered.

---

1   What are **static files or assests?**

---

2   What is the `url_for()` function used for?

3

Which one of these is the correct syntax for including a `CSS` style sheet in the template?

Check Answers

In the next chapter, we will finally start working with **Jinja** and learn how to create dynamic templates!
