# Learning Paths After This Course

In this lesson, we will see the various technologies and skills you can learn next after having completed a course on the HTML, CSS, & JS trinity.
Let's begin! :)

The following courses may be of interest to you if you want to take your **front-end skills** further:

**CSS**

- The Complete Advanced Guide to CSS
- CSS Theming for Professionals
- Sass for CSS: Advanced Frontend Development
- Understanding Flexbox: Everything you need to know
- Intermediate JavaScript: Building Frontend Components

**HTML**

- HTML5 Canvas: From Noob to Ninja - an interactive deep dive

Here are some very useful courses for specifically **React** lovers:

- [The Road to learn React](#)

- [Reintroducing React: V16 and Beyond](#)

- [React in Patterns](#)

- [Advanced React Patterns With Hooks](#)

If you are interested in full-stack development, check out the following courses:

**Data bases**:

- [Database Design Fundamentals for Software Engineers](#)

- [Full-Stack Web Applications with Firebase](#)

- [The Definitive Guide to MongoDB](#)

**Python and PhP**

- [Flask: Develop Web Applications in Python](#)

- [Learn PHP from Scratch](#)

**JavaScript**

- [JavaScript In Practice: ES6 And Beyond](#)
- [The Complete Guide to Modern JavaScript](#)
- [JavaScript Fundamentals Before Learning React](#)

**Web Architecture**

- [Web Application & Software Architecture 101](#)

**Making you website live**

- [A Complete Guide to Launching Your Website: From Local to Live](#)
