Quiz

In this lesson, we will solve a quiz related to the concepts covered in the previous lesson

---

1 What is the correct syntax for the spread operator for objects?

---

2 What is the correct output of the following code:

```
let myObj = {
    a:1,
    b:2,
    c:3,
    d:4,
}

let { a, b, ...z } = myObj;
console.log(z);
```

3 What is the correct output of the following code:

```javascript
const myPromise = new Promise((resolve,reject) => {
  resolve();
})
myPromise
.then( () => {
    return '1';
  })
  .finally(()=> {
    return '2!';
  })
  .then( res => {
    console.log(res);
  })
```
