# Quiz

Here is a short quiz to test the basic understanding of the concepts explained in this chapter.
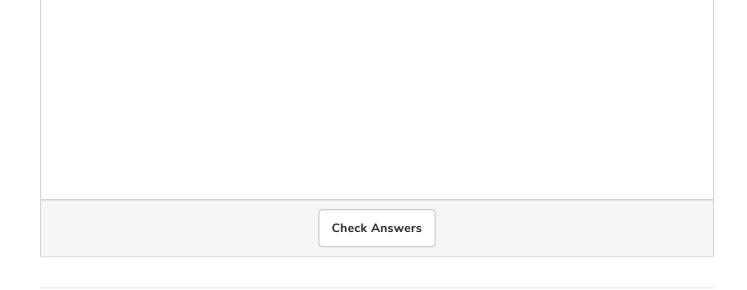

**1**     `int` and `uint` have the same size.

**2**     Predict the output of following program:

```d
import std.stdio;

void main() {
    writeln(3 ^^ 2 + 5 *2);
}
```

**3**

In case of signed addition, which of the following functions can be used to detect overflow?

**4**

The number of bits used to represent a `double` type variable is:

**5**

In order to avoid truncation problems, which data type is preferred?

**Check Answers**

In the next chapter, you will learn about conditional statements and loops.
